AMPCO PUMPS

Authorized Distributor For...

Fristam Pumps ... Think Ampco.

LC/LD/LF: Series Pumps

- Dimensionally, hydraulically and parts are interchangeable with Fristam
- Stainless Steel Motor Adaptors
- Stainless Steel Motors Available
- Competitive Prices

High efficiency centrifugal pumps that meet all your sanitary requirements.
- LF Pumps offer a front loading seal design for ease of maintenance and are easily convertible to a double seal without changing any other parts.
- High efficiency design and performance offers gentle product handling capability up to 1200 cps.

ZP Series Pumps

ZP Series Pumps are a line of rotary piston positive displacement pumps. On the PD pump the most significant improvement is a 304 SS gear case on every pump. No more rusting, chipping and peeling. All stainless steel hardware prevents corrosion and stripped bolts, including a stainless steel gear case. Along with 17-ph H-1150 shafts and 4-way mounting.

All can be rebuilt with over-sized rotors to extend the pump’s useful life.

Ampco’s new ZP 3 SERIES offers multiple advantages over the competition:
- Front-loading seals for ease of maintenance
- In-line clean ability without further modifications
- New rotor case design for maximum efficiency
- Tungsten carbide seal faces for longer life

SANITARY PUMPS - Flow Components

The highly efficient pumps supplied by Harco provide precision pumping for all kinds of fluids with different viscosities, and the desired functionality for gentle and cost effective food production.

- Centrifugal
- Rotary Lobe
- Liquid Ring
- Positive
- Hot Water

Applications: Brewing, Dairy, Food, and Pharmaceutical Industries.

Stainless Steel SRU Pump

Stainless Steel LKH Prime Pump

Large Inventory of OEM Spare Parts in stock.

SANITARY VALVES - Flow Components

The smart design of all valves supplied by Harco incorporate state of the art, precision engineered designs that meet or exceed current regulatory requirements. This category covers a wide range of valves for both sanitary, aseptic and non-sanitary applications.

- Unique - Mixproof - PMO
- Single Seat -SSV / 7000 Series
- Shutter / Butterfly
- Regulating
- Sampling
- Automation

Applications: Brewing, Dairy, Food, and Pharmaceutical Industries.

C-Series Pump

Large Inventory of OEM Spare Parts in stock.

HEAT EXCHANGERS
For Sanitary, Industrial, Process Applications
Harco gives you access to a wide range of compact plate heat exchangers that are especially designed for pasteurizing and other kinds of heating and cooling of liquid foods. No matter which you select, you will acquire a proven, reliable, hygienic and compact design that will carry out its tasks effectively and without problems for many years to come.

CONTHERM Scraped Surface Heat Exchanger
The Contherm scraped-surface heat exchangers are designed for heating and cooling operations in the continuous and semi-continuous processing of many food, health and beauty aid products. Contherm is a vertically mounted, scraped-surface heat exchanger, a design that has proven to be the most effective in providing a comprehensive range of benefits. Saving valuable floor space, maximizing product recovery and optimizing cleaning-in-place (CIP) and reducing the risk of contamination.

BÜRKERT VALVES
HARCO offers a wide range of BÜRKERT valves for sanitary and utility use, along with a new Hassle Free Control Top from BÜRKERT for hygienic process valves.

COLUMBIA PRODUCTS
Wash Stations & Sinks, Shovels, Forks & Paddles
Wash Stations & Sinks Certified NSF/ANSI 372 low-lead and NSF/ANSI Standard 2 Food Equipment. Seamless welded construction of 14, 16 & 18 gauge type 304 stainless steel. Exposed surfaces have a blended uniform satin finish.

Shovels, Forks & Paddles
Certified NSF/ANSI Standard 2 Food Equipment. Constructed from heavy duty, type 304 stainless steel with an electropolished finish to enhance corrosion resistance, improve surface finish and for ease of cleaning. Ideal for use in the food processing industry.
CFIA APPROVED SANITARY LUBRICANTS
For All Incidental Food Contact Food Processing Equipment.

Haynes Spray
A light duty lubricant for fast application.

Haynes Lubri-Film
A heavy duty lubricant.

No. 1 Sanitary Lubricant Used In The Dairy Industry And Soft Serve Machines
Absolutely Tasteless And Odorless!

Petro-Gel
Purist of lubricants!

Heavy duty lubricating grease and oils with high load bearing, low friction properties for all incidental food contact food processing equipment.

Enquire today for a complete list of information and applications for these lubricants, along with many of our other lubricants available!!

HARCO GAUGES
3½˝ and 5˝ Sanitary Pressure Gauges, Homogenizer Gauges and Pharmaceutical Class Gauges

Harco’s own line of pressure gauges has been designed specifically for the harsh environments found in the dairy and food processing applications.

TUBES & FITTINGS
These Hygienic Tubes and Fittings meet the exacting demands for safety, reliability, efficiency and hygiene for standard duty in the food, dairy, beverage, personal care, biotechnology and pharmaceutical process applications.

GASKETS
All styles and sizes are maintained in stock to ensure you fast delivery of the highest quality gaskets at all times. Closures, Dust Covers, Filters, Strainers, Clamp and other styles are all available.

ARCHON WASH DOWN EQUIPMENT

Heavy Duty Rear Trigger Spray Nozzles
MODEL: RT12
(Available in black, red, or white).
The rear trigger hose nozzle is a precision made and fully adjustable instrument that provides any type of water stream.

Features:
- Maximum working pressure: 200 psi (13.8 BAR)
- Maximum operating temperature: 200°F (93°C)
- Ergonomically designed handle reduces operator fatigue
- Automatic shut-off upon lever release for safety and for reduction of water usage

Washdown Hose
EXTRUDED 5/8”
(Available with brass/stainless steel ends).
Tube: FDA White & Black Nitrile
Cover: Smooth extruded rubber
Connections: ½” x ¾” Male NPT swivels
Working Pressure: 300 PSIG
Maximum temperature: 200°F

Stainless Steel Hose Reel
MODEL: RL-N800-SS
(Also available in carbon steel).
- Spring rewind reel with narrow frame and compact mounting base
- Standard inlet 90° ball bearing swivel joint 1” female NPT threads
- Standard outlet 1” female NPT threads
- Pressures to 1000 psi (69 bar)
- Temperatures from +20°F to +400°F (-7°C to +204°C)

LARGE INVENTORY, COMPETITIVE PRICES!

**COLOUR CODED SHOVELS, PAILS, MOPS & BUCKETS**

**Brute Containers & Lids**
This container is built with its trademark durability and toughness, the BRUTE Container’s newest innovations improve productivity and ease-of-use. Venting channels and integrated cinches help you finish the job faster with a lot less effort. These rugged all-purpose containers are built for tough food plant conditions, for food products or waste. Made of USDA-accepted materials, comply with FDA regulations, and are NSF #2 & 21 compliant. Seamless construction helps make cleaning easier. Add a dolly to convert Brutes to mobile bins. Available in many sizes and colours.

**Wet Mop Handle**
Quick-release model minimizes contamination, never having to touch the dirty mop head again. Colour-coded handles are all fiberglass and plastic construction, an ideal choice for your HACCP program and will not rust. Use with 1” headband mops only.

**5 Gallon Plastic Pails**
Avoid contamination by matching pail colour to a particular job or zone in your plant. These strong, lightweight pails have a steel bail with heavy-duty plastic handle. Meet FDA specifications. Pails and lids sold separately.

**Mop Bucket and Wringer**
Colour-Coded for specialized cleaning - WaveBrake® Side Press and Down Press Combos are colour-coded for easy separation of cleaning by room or area to reduce cross-contamination.

**Plastic Scoops**
These low-cost scoops are versatile and long-lasting. Tough, one-piece injection molded resilient polypropylene construction and meets FDA requirements. Material won’t rust or corrode and can be sterilized. Convenient hook for hanging. 82 oz. Scoop features a closed ribbed handle for better grip.

**Plastic Shovels**
Sturdy, one-piece shovel is constructed of rigid yet lightweight polypropylene. Perfect for hauling hefty loads. Smooth finish for easy clean-up. Deep bucket for extra capacity and an edged blade for easy scooping. Chemical and corrosion resistant. White, red, yellow, blue and green meet FDA and USDA requirements for food handling. Use black for non-food products.

**Total Colour Coded Vikan Pails**
Available in Brown, Lime, & Grey

**Flat-Sided Pails**
Made from FDA-compliant materials, this flat-sided pail can be used for a number of applications. Inner measuring scale is in gallons and liters, drip-free spout, hand grip that is raised from the base and sturdy handle is made of stainless steel. The lids easily snap on for a tight secure fit to protect the measured contents. Available in 1.5, 3, and 5 gallon pails. Stainless steel mounting bracket also available - accommodates either sized pail. Pails, lids, and brackets sold separately. Temperature rating of 5° to 250°F.

More Colour Coded products available. Please contact us for more information.
COLOUR CODED BRUSHES AND HANDLES

**Truck & Wall Brush** Ideal for use where lots of water is necessary on trucks, walls, or equipment. Structural foam block with wrap-around vinyl bumper and soft Nylex bristles prevents scratching. Use as a flo-thru or dip-style brush. One threaded flo-thru and one tapered handle hole. Handles sold separately.

**Floater Hand Scrub Brush** So lightweight they actually float. Non-absorbent block won’t crack or chip. Bristles rinse easily for quick clean-up. These tough, durable and economical brushes are perfect for a multitude of cleaning chores. Now available in a Total Color Block consisting of the colors red, yellow, blue, and green.

**One-Piece Rubber Squeegee** Prevent cross-contamination with this economical squeegee in HACCP-friendly colours. Sanitary, solid one-piece construction minimizes possible contamination areas and reduces the possibility for dirt to collect in the squeegee. Handles sold separately.

**Tank, Kettle and Equipment Brush** All-around flared head design assures thorough cleaning action from any angle. Bristles are imbedded directly into the block, which reduces bacterial buildup. Never dents or scratches because the block can’t touch the surface being cleaned. Handles sold separately.

**Standard Thread Fiberglass Handles** Compliment your colour coded program with these popular fiberglass handles. Available in brown, white, black, yellow, red, green, blue, orange and purple.

**Stainless Steel Handles Also Available.**

**TOTAL COLOUR CODED BRUSHES AND HANDLES**

**Single Blade Ultra Hygiene Squeegee**
The ultra-hygienic fully molded single-blade squeegee is ideal for use in areas requiring the highest level of hygiene. Improved design features smooth and rounded surfaces which provide better hygiene and easier cleaning. Requires Euro-thread handle. Sold separately. Also available in 10”, 20” and 28” blade squeegees.

**Tank Brush - Soft**
Oval-shaped brush is ideal for cleaning tanks and vats, and is also suitable for cleaning drain gulleys. May be used with any European-thread handle from Vikan. 1.5”L bristles.

**Ultra Hygiene Polypropylene Euro-Thread Handles**
Food-grade polypropylene Euro-thread handle with a hygienic design, minimizes the risk of cross-contamination and makes it easy to clean and maintain. Ergonomically designed grip has been optimized to be comfortable during use. Chemically resistant polypropylene ensures that it can be safely used in a variety of environments.

**Standard Deck Scrub**
This floor scrubbing broom has firm bristles. The bristle length is perfect for scrubbing all types of floors; epoxy, tiles, cement, etc. Requires Euro-thread handle, sold separately.

**More Colour Coded products available. Please contact us for more information.**
