

# ANNOUNCEMENT

Welcoming Roger Axon to Our Technical Support Team  
at Harco Enterprises Ltd.

Harco Enterprises Ltd. is pleased to announce that Roger Axon has recently joined our team. Roger brings with him a wealth of knowledge, especially to the sanitary processing industries. Roger specializes in the area of flow components, dimensioning of centrifugal, positive displacement pumps, all types of single seat/mixproof valves, regulatory considerations, and product application.

His years with Tetra Pak, Alfa Laval and Tri Clover has allowed him to gain extensive knowledge of key processing components, and is a great resource for technical support, maintenance, spare parts, and trouble shooting. Rogers "hands on" customer solution approach ensures that the selection and recommendation of equipment from Harco is tailored to fit your specific application.

Roger looks forward to responding to your enquiries. Please contact him at 416-371-3280 or email [raxon@harco.on.ca](mailto:raxon@harco.on.ca)
