

CFIA APPROVED

PROTECTOR® SUCTION & DISCHARGE HOSE

Premium quality, versatile and seamless tube!

This premium quality, remarkably versatile-use hose has a seamless tube that is **ideal for food, beverage and dairy plant use**. It won't impart taste or odor to product and is highly resistant to common CIP solutions. Abrasion resistant cover helps maintain a clean appearance. Unique fabric spirals and helix reinforcement gives our suction and discharge hose exceptional flexibility.

- Approvals: FDA, USDA, 3-A, CFIA.
- Tube: Seamless white FDA butyl rubber manufactured on chrome polished mandrels.
- Reinforcement: 2 fabric spirals with helix wire.
- Cover: White EPDM with a blue stripe - animal fat, abrasion and ozone resistant.
- Temperature: -40° to 225°F continuous (+250°F intermittent).
- Lengths: 1 foot to 100 feet.
- Factory installed ReSeal® reusable or PermaSeal® permanent couplers.
- Color: Light Gray or White with blue stripe.
- Rated for full suction and discharge service up to 150 psi.

Note: All hose and tubing pressure ratings are shown at ambient temperature (68°F). As temperatures increase, working pressures and vacuum ratings will decrease. For specific applications, contact our hose product specialists for recommendations.
