Plate Heat Exchangers - Alfa Laval / Tetra Pak

For Sanitary, Industrial, HVAC and Process Applications

Tetra Pak gives you access to a wide range of compact plate heat exchangers that are especially designed for pasteurizing and other kinds of heating and cooling of liquid foods. No matter which you select, you will acquire a proven, reliable, hygienic and compact design that will carry out it's tasks effectively and without problems for many years to come.

Replacement Heat Exchangers and Parts Available For Most Competitive Plate Heat Exchangers.

Separators

For Every Duty

Energy-efficient models with high quality standards for a wide spectrum of applications. An advanced inlet and outlet design ensures gentle treatment during the entire separation process.

- Milk clarification
- Hot milk separation
- Cold milk separation
- Whey clarification
- Whey cream separation
- USDA accepted whey clarifier
- Anhydrous milk fat
- Buttermilk separation

Parts available for all models for Westfalia and Alfa Laval machines.

Tetra Pak
Authorized Tetra Pak Distribution Centre.

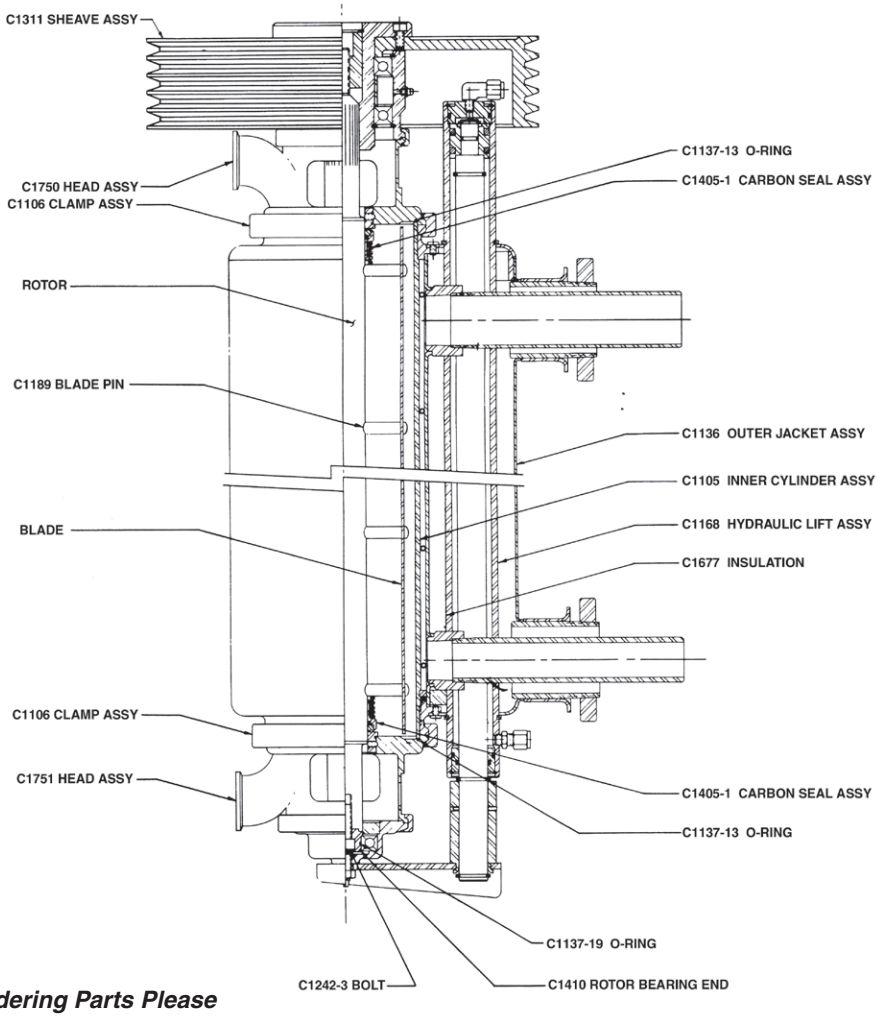
Contherm

Scraped Surface Heat Exchanger

Tetra Pak
Authorized Tetra Pak Distribution Centre.

The Contherm scraped-surface heat exchangers are designed for heating and cooling operations in the continuous and semi-continuous processing of many food, health and beauty aid products.

Contherm is a vertically mounted, scraped-surface heat exchanger, a design that has proven to be the most effective in providing a comprehensive range of benefits. Saving valuable floor space, maximizing product recovery and optimizing cleaning-in-place (CIP) and reducing the risk of contamination.



When Ordering Parts Please Supply Us The Model And Serial Numbers.

50	1	O-ring
51	1	Sec. stationary seal ring
52	1	Drive ring
57	1	Inducer

When Ordering Parts Please Supply Us The Model And Serial Numbers Of Pump.

Designed for either CIP or manual cleaning, these quiet pumps are available with capacities up to 1,300 gal/min and/or pressures up to 525 head in feet of water (227 psi). All product contact parts – backplate, casing, impeller and the impeller retaining bolt – are made of AISI 316L stainless steel. Polished models are USDA approved and exceed 3A standards so you can be sure you have got the most hygienic centrifugal pump possible.

When Ordering Parts Please Supply Us The Model And Serial Numbers Of Pump.

The SRU range of rotary lobe pumps has been designed for use on wide ranging applications within the Brewing, Dairy, Food, Pharmaceutical and Chemical industries.

The SRU range is compact in size and highly efficient, capable of flow rates up to 466 gpm and pressures up to 290 psi. The new improved modular design provides for greater application flexibility and cost effective easy maintenance.

When Ordering Parts Please Supply Us The Model And Serial Numbers Of Pump.

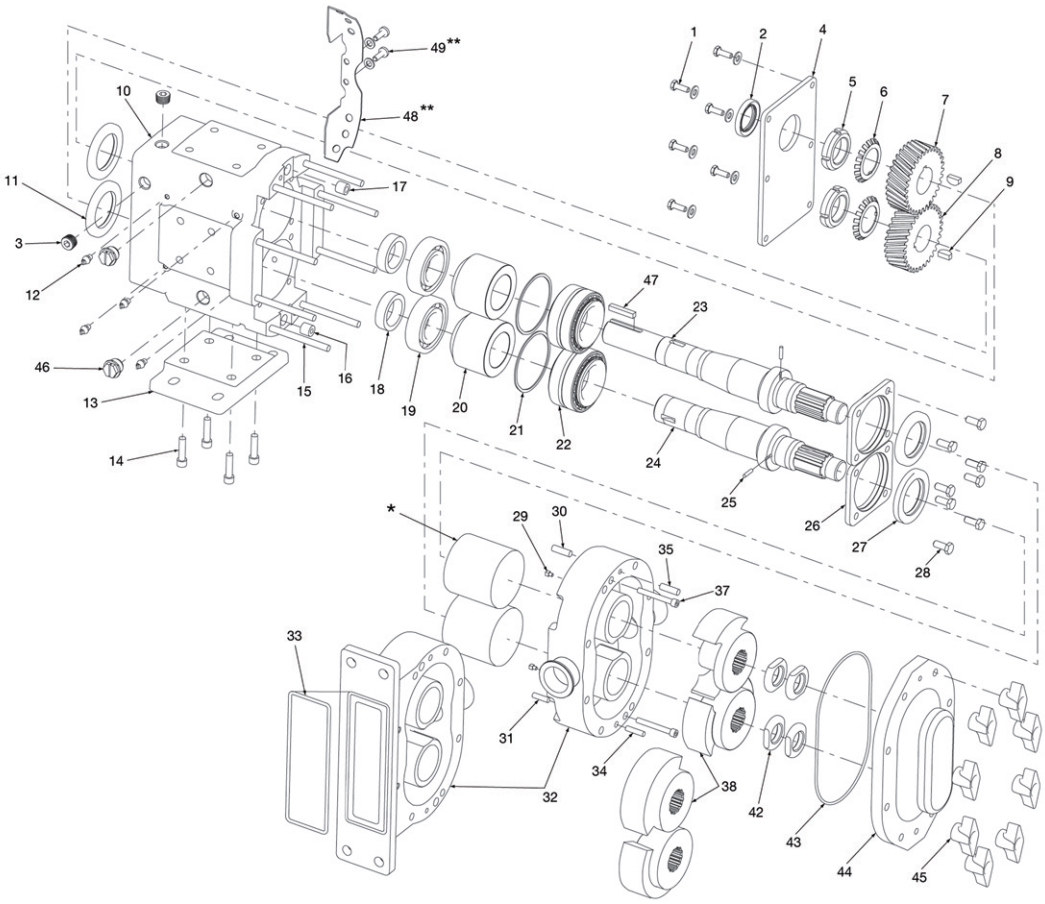
The Universal I range of positive displacement pumps have been designed for use on a wide range of applications within:

Dairy, Food, Beverage, and Personal Care markets. The highly efficient design is particularly suited to applications that are low in viscosity with medium to high discharge pressures.

Stainless Steel Gear Cases on Ampco Pumps.



Performance

- **Capacity Range:** 0.1 to 310 gpm (0.02 to 70.4 m3/hr)
- **Pressure Range:** up to 500 psi/ 34 Bar
- **Temperature Range**: -40°F to +300°F (-40°C to +150°C) Note: Hot clearances required for high temp operation
- **Viscosity Range:** 28 to 910,000 SSU (1 to 200,000 cSt) Note: Consult factory for application greater than 910,000 SSU/200,000 cSt
- Chocolate clearances available

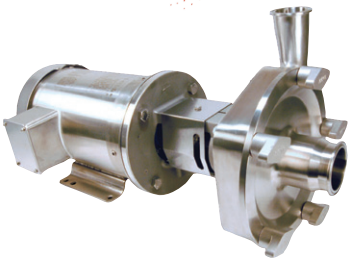
2	1	Cover
1	1	Casing

[1]Not shown
[2](6) Socket head set screws for 250 frame
[3]Star nut quantity varies with pump model

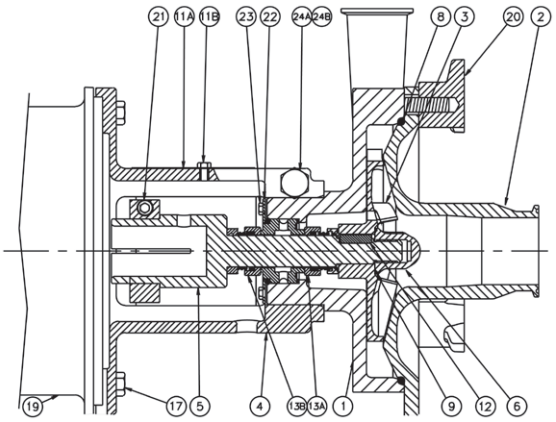
The LC/LD/LF Series Pumps are a high efficiency design and performance offers gentle product handling capability up to 1200 cps.

Heavy-wall construction, tight manufacturing tolerances, dynamically balanced impellers and a self-aligning shaft minimize vibration and promote longer seal life.

Standard adapters are made of 304 SS to resist corrosion.

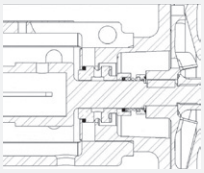


Single Internal Mechanical Seal

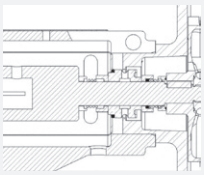


STANDARD SEAL OPTIONS

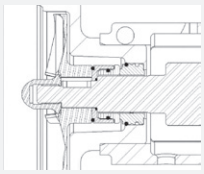
LC SINGLE SEAL
Standard Material:
- Silicon carbide/Carbon/Vitom
- Optional chrome oxide rotating element



LD SINGLE SEAL
Standard Material:
- Silicon carbide/Carbon/Ceramic/Vitom
- Optional chrome oxide rotating element



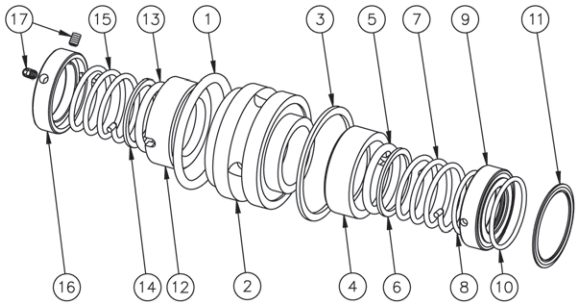
LF SINGLE SEAL
Standard Material:
- Silicon carbide/Carbon/Vitom
- Optional double seal



Seal Breakdown For LC/LD Series Pumps (Items 12-17 for LD Series Pumps only)

Parts List

POS	DESCRIPTION
1	Stationary o-ring
2	Stationary seal
3	Flat gasket
4	Rotating seal
5	Rotating o-ring
6	Seal washer
7	Spring
8	Inside seal driver o-ring (May be pre-installed)
9	Seal driver
10	Outsied seal driver o-ring
11	Seal washer
12*	Rotating seal
13*	Rotating o-ring
14*	Seal washer
15*	Spring
16*	Seal driver
17*	Seal screws (2)



Ampco Series	Competing Fristam Series
LC	FPX
LD	FP

APV Puma Pumps V & VI

APV
CREPACO, INC.

Parts List

ITEM	DESCRIPTION
1	Main supporting frame and cradle
2	Setscrews far above frame, Hex. hd.
3	Nameplate
4	Pin, Rd.hd. No. 4, for above
5	Extension frame for unshrouded motors
6	Shaft, stub
7	Screw, cap, socket head
8	Safety guard, stub shaft
9	Backplate
10	Joint, body
11	Impellar
12	Clamping collar assembly
12a	Tommy bar for clamping collar
13	Ring, joint, RJT
14	Nut, impellar
15	Body, pump (Shrouded motors only)
16	Grubscrew 2BA, slot head
17	Foot, ball
18	Setscrew, 2BA, round head
19	Washer, plain, 1/4"
20	Bolt, hex. Head, 1/4" B.S.W.
21	Clip
22	Screw
23	Baffle plate and terminal box assembly, Earth cable, Grammet
24	Shroud, case assembly, Eyebolt, for unshrouded motors only
25	Motor, electric, 3 ph. 50 Hz.
26	Motor rails
27	Foot, ball, adjustable
28	Locknut, 5/8" BSF, hex.
29	Setscrew, 1/2" BSW x 1-3/5" lg., hex. head
30	Washer, plain, 1/2"
31	Body, pump
32	Nameplate

We also sell parts for **Gaulin & Terta Pak Homogenizers.**

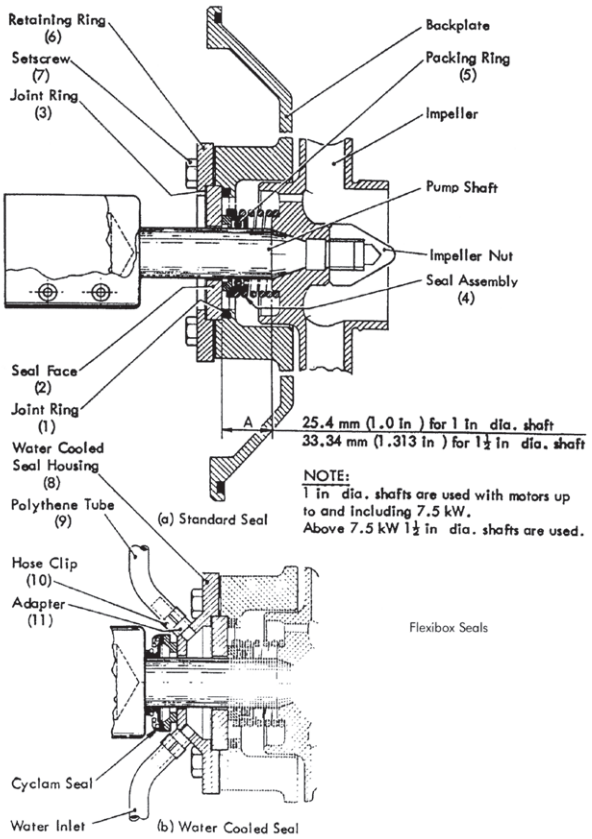
When Ordering Parts Please Supply Us The Model And Serial Numbers Of Pump.

APV Puma Pumps V & VI - Seals

Parts List

ITEM	DESCRIPTION
NON-WATER COOLED FLEXIBOX SEAL	
1	Joint, seal face, gasket
2	Seal face
3	Joint, retaining ring, gasket
4	Seal assembly
5	"O" ring (packing ring)
6	Retaining ring
7	Setscrew, 5/16", B.S. hex. head
EXTRA ITEMS REQUIRED FOR WATER-COOLED SEAL	
8	In place of item 6: Housing
9	Tube, polythene, 3/8" o.d. X 18" long
10	Hose clip
11	Adaptor, 3/8" o.d. to 1/8" B.S.P
12	Seal assembly

When Ordering Parts Please Supply Us The Model And Serial Numbers Of Pump.



SRC Shut-Off Valve

Actuator Parts List

POS	QTY	DESCRIPTION
1	1	Cap
2	2	O-ring
3	1	Cylinder
3a	1	Air fitting
4	1	Lock Wire
5	1	O-ring
6	1	Piston
6a	1	Stop ring
7	1	O-ring
8	1	Bonnet
9	1	Exhaust plug
10	1	Spring assembly (standard black)
11a	1	Clip, complete (period 84.08-)
11b	1	Clip, (period 68.02 - 84.07)

Valve Parts List

POS	QTY	DESCRIPTION
Stem Seal		
14	1	Lip seal
Clamp		
15	1	Heavy duty clamp
Valve Body (industrial)		
18	1	Valve body
Valve Body (polished)		
18	1	Valve body
Valve Plug		
19	1	Plug, single, complete
a	1	Stem
e	1	Seal ring
f	1	Washer
g	1	O-ring
h	1	Screw

Alternative for Stem Seal

POS	QTY	DESCRIPTION
Stem Seal		
14	1	Lip seal kit
a	1	Leap seal
b	1	Plate
c	1	Seal ring
FEP Seal		
14 d	1	Washer
e	1	O-ring FEP/Silicone
f	1	Holder
g	1	Valve body packing

Service kits are available for all.

When Ordering Parts Please Supply Us The Model And Serial Numbers Of Valve.

See our website for information available - www.harcosuppy.com

SRC is an air-operated seat valve with a sanitary and flexible design giving a wide field of application, e.g. as a stop valve with two or three ports or as divert valve with three to five ports.

The valve is remote-controlled by means of compressed air. It has few and simple moveable parts which results in a very reliable valve.

This air-operated seat valve features the positive action of either a short-stroke or long-stroke actuator. The 761/741 valve is ideal for high volume, sanitary liquid processing applications. Its heavy-duty construction and precision-molded bonnet gaskets ensure positive alignment under severe operating conditions.

The valve is remote-controlled by means of compressed air. It has few and simple moveable parts which results in a very reliable valve.

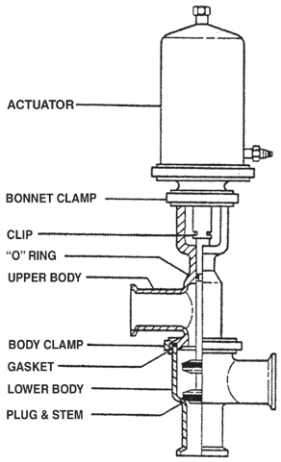
DIVERT VALVE

Model: W60-77-Size; 60-77-Size; GC60-77-Size

NOTE: All parts are interchangeable due to connection, bodies are listed separately.

PART NUMBER	DESCRIPTION
W60-7-Size-1	Weld lower tee body
W60-77-Size-1	Weld upper tee body
60-7-Size-1	Threaded lower tee body
60-77-Size-1	Threaded upper tee body
GC60-7-Size-1	Clamp lower tee body
GC60-77-Size-1	Clamp upper tee body
60-77-Size-2	Plug & Stem*
60-7-1½-9	Clip
60-7-902-9	Stem "0" Ring

PART NUMBER	DESCRIPTION
GH13Z	(1½" Valve) has 2½" Clamp
GH13Z	(2" Valve) has 3" Clamp
GH13Z	(2½" Valve) has 3½" Clamp
GH13Z	(3" Valve) has 4" Clamp
C40B	(1½" Valve) has 2½" Gasket
C40B	(2" Valve) has 3" Gasket
C40B	(2½" Valve) has 3½" Gasket
C40B	(2" Valve) has 4" Gasket
GH13Z-2½	Bonnet clamp to actuator all valves



TEE VALVE

Model: W60-7-Size; 60-7-Size; GC60-7-Size

NOTE: All parts are interchangeable due to connection, bodies are listed separately.

PART NUMBER	DESCRIPTION
W60-7-Size-1	Tee Body Weld
60-7-Size-1	Threaded Body
GC60-7-Size-1	GC Clamp Body
60-7-Size-3	Bonnet
60-7-Size-2	Plug & Stem*
60-7-902-9	Stem "0" Ring
60-7-1½-9	Clip
GH13Z	(1½" Valve) has 2½" Clamp
GH13Z	(2" Valve) has 3" Clamp
GH13Z	(2½" Valve) has 3½" Clamp
GH13Z	(3" Valve) has 4" Clamp
C40B	(1½" Valve) has 2½" Gasket
C40B	(2" Valve) has 3" Gasket
C408	(2½" Valve) has 3½" Gasket
C40B	(3" Valve) has 4" Gasket
GH13Z-2½"	Bonnet clamp to Actuator all valves

Steam and Cold Water Mixing Units

M-5000TG

Reduce Steam Pressure Costs!

A Steam and Cold Mixing Water Unit, the M-5000TG is designed to produce hot water instantly from a steady supply of steam and cold water.

M-5000TG/M-5700TG Unit

Required Steam Model No.	Required Steam Pressure*	Required Water Pressure*	GPM
M-5000 L**	80-95 lbs.	50-80 lbs.	5 - 7
M-5000 M	96-130 lbs.	50-80 lbs.	4.5 - 6
M-5000 H	130-150 lbs.	50-80 lbs.	4.5 - 6

The M-5000 unit is available in bronze or chrome-plated material.
* Steam pressure required at installation site to ensure proper operation of mixing unit.
** Standard unit supplied.

PART #
M-5000TG

M-144TG

A Steam and Cold Water Mixing Unit, the M-144TG is designed to blend steam and cold water in any desired proportions.

Specifications

- Maximum operating pressure - 80 psi/5.5 bar steam and 80 psi/5.5 bar water.
- Safety steam shut-off
- For proper operation, water pressure should not exceed steam pressure

PART #
M-144TG

Strahman Extruded Hose

Features:

- Lightweight, flexible and heavy-duty service. Excellent abrasion resistant and oil resistant hose. Good Chemical resistance.

Working Pressure: 300 PSI

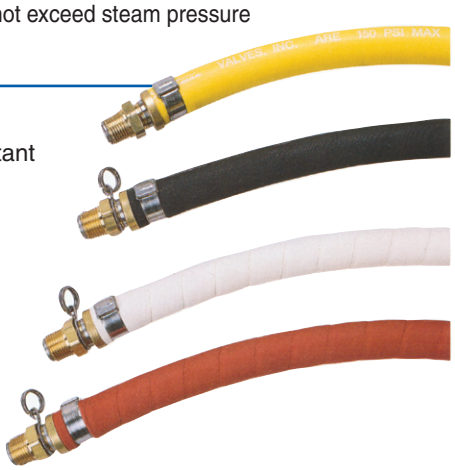
Minimum Burst Pressure: 1500 PSI

Temperature Rating: Minus 20 degrees to 200 degrees Fahrenheit

Hose Specifications:
5/8˝ Hose Tube & Cover: Tube — FDA Approved compounds. Cover — Carbryn RMA Class A.

Available Sizes: 5/8˝ I.D.

Available Colours: 5/8˝ Red, Yellow, White & Black



SANITARY LUBRICANTS - *All CFIA Approved*

Haynes, McGlaughlin Oil, Harco

Haynes Lubri-Film

A heavy duty lubricant with high load bearing, low friction properties for all incidental food contact food processing equipment. **Applications:** Positive Pumps, Homogenizer pistons, size reduction equipment, Beverage Equipment, Ice Cream Equipment, Yogurt Machines, Batch Freezer, Stainless steel threads, Separators, Clarifiers and Soft Serve Machines.

	PRODUCT
1	Lubri-Film, Tube, 4 oz. , 12 pack
2	Lubri-Film, Cartridge, 12 oz. , 6 pack
3	Lubri-Film Spray, 11.25 oz. , 1 or 10 pack
4	Lubri-Film, Drum

Lubri-Film Tube, 4 oz.

Lubri-Film Cartridge, 12 oz.

Lubri-Film Spray, 11.25 oz.

Haynes Lubri-Film PLUS

Heavy duty sanitary lubricant with extended performance, low friction properties specifically designed for longer lubrication intervals. **Applications:** Pumps, Perpetual moving slicers, Cheese processing equipment, Dispensing units, Bearings, Packings, Plug valves, Locks, and Beverage equipment.

	PRODUCT
1	Lubri-Film PLUS, Tube, 4 oz.
2	Lubri-Film PLUS, Drum
3	Lubri-Film PLUS, Pail

Lubri-FilmPLUS, Tube, 4 oz.

Haynes 500 / 500 PLUS

Designed specifically for food, meat and bakery plants with high temperature (500ºF)/high load bearing applications. Extreme pressure qualities and boundary friction protection. **Applications:** Pumps, Bearings, Packings, Plug valves, Dispensing units, High load bearing equipment, Ball joints, Universal joints, Meat processing equipment, and Perpetual moving slicing equipment.

	PRODUCT
1	Haynes 500, Cartridge, 14 oz. , 1 or 10 pack
2	Haynes 500, Cartridge, Drum
3	Haynes 500, Pail

Haynes 500, 14 oz. Cartridge

Haynes 500 PLUS, 14 oz. Cartridge

Haynes CIP Film

Specifically formulated for Clean-In-Place systems. Low 120ºF melting point ideal for food processing equipment with frequent lubrication intervals. **Applications:** Fittings, Positive pumps, Threads, Valves, Multi-Port flow selectors, Plug valves, Sanitary CIP systems, and Parts requiring daily lubrication.

	PRODUCT
1	Haynes CIP Film Tube, 4 oz. , 12 pack
2	Haynes CIP Film, Drum
3	Haynes CIP Film, Pail

CIP-Film Tube, 4 oz.

Haynes Spray

A USP light duty sanitary oil packaged in handy aerosol spray cans for fast application on food processing equipment as well as drawer slides, doors, hinges, etc. **Applications:** Valve stems, Pistons, Rings, Conveyors, Slides Pump parts, Gates, Wheels, and Hinges.

	PRODUCT
1	Haynes Spray, 9oz. Can, 6 pack

Haynes Spray, 9oz. Can

DISINFECTANT MATS - Stop Contamination at the door!

Standard 24˝ x 32˝ (# 430-2000) and the High-Wall™ 32˝ x 39˝ (# 430-2007) specially designed mats both clean and sanitize. Rubber fingers clean shoe souls while solution sanitizes them. This unique double action helps keep contamination from reaching food processing areas when used at all entrances. Other important locations include doorways to starter rooms, packaging areas, laboratories, employee locker rooms, break rooms, refuse areas and receiving rooms…anywhere you want to limit the spread of contamination.

Is Listeria or other bacteria threatening your product?

Sparta's new "Tri-zone" Colour-Coded Brush Program can be your best defense.

More than 400 years ago, man first speculated that certain invisible particles were the cause of infectious diseases. Today, food associated pathogens are a frequent cause of disease in the United States. According to expert estimates, the annual number of food-borne illness is in the millions.

A rash of food poisoning incidents over the past few years has brought renewed attention to the problem as it relates to food processing and dairy plants. Modern, CIP equipment, which promised and delivered so many time-saving benefits, has also created an often too casual atmosphere regarding manual cleaning activities. Consequently, plant personnel are neglecting to thoroughly scrub areas that are cleaned by a CIP system.

The result is often a hazardous level of contamination on milk or food-contact surfaces and in the air throughout the plant.

The FDA has identified the need for a well organized and properly implemented sanitation program. It emphasizes the need for a clean plant environment extending from receiving areas to packaging rooms, and from floor drains to the air.

A critical element in this program is the proper selection, use and care of brushes. The FDA calls for the segregation of brushes to avoid cross contamination. Separate brushes should be used for internal and external surfaces. Brushes should be maintained in good condition, properly stored when not in use and sanitized between uses.

Sparta's "tri-zone" Colour-Coded Brush Program is the key to keeping brushes in the areas they are used, doing the jobs they are meant to.

Selecting The Proper Brush

The Carlisle line of brushes and cleaning tools is designed for the food processing and food service industries. When designing a product, special consideration is given to preventing the possible transfer of bacteria to maintain superior food service hygiene. Cross-contamination from foods and personal hygiene are increasingly important under the new HACCP guidelines. We believe our line represents your very best choice for efficiency, service, and durability in food processing and food service sanitation, maintenance, and food preparation.

Brushes and cleaning tools must be very specialized in order to meet all of the unique requirements of the food and processing and food service industries. Brushes and cleaning tools are shaped and sized specially for certain foods, pipes, fittings and equipment used exclusively in the food processing and service environments. Proper bristle selection is also important. Longer bristles are more flexible, taking the same material in a smaller trimmed brush would create a tougher bristle. Maximum bristle tip contact to whatever surface and the proper bristle type for the surface to be cleaned is key. Proper selection is very important for making the cleaning and prepping process as easy and efficient as possible.

When choosing brushes, most fall into one of three basic categories:

1. Circular "tube cleaning" type brushes - tube cleaning brushes are designed to fit inside of drains, valves, tubes and other types of fittings. Tube cleaning brushes are specified by diameter across bristle area. The diameter of the brush should be exactly the same as the opening of the tube or fitting to be cleaned. If the opening is larger than the brush diameter, the bristle tips will not contact the walls of the surface to be cleaned. A loose fitting brush means that multiple passes will be required or that the surface may not be cleaned properly. A fit that is too tight reduces cleaning efficiency as well as possibly damaging bristles or resulting in a brush becoming stuck in an opening. The length of handles for tube brushes should be long enough to reach the entire length of tube or fittings to be cleaned. Tube brushes are often bent or curved to specific shapes for cleaning the outside of tubes, and fittings.

2. Flat "scrub" type brushes - Brushes in this category are for cleaning flat, curved or open surface. Many of our scrub brushes have various "trim" angles to keep bristle tips in contact with surfaces during the cleaning or food prepping process. Our brushes are ergonomically designed to provide superior comfort and control. Scrub rushes come in different handle shapes and lengths for a safe and convenient reach to surfaces.

3. "Pastry and basting" brushes and basting brushes are designed with densely packed, fine bristles for greater "loading" of brush with melted butter, vegetable oils, sauces, glazes or other fluids used for food preparation. The greater the mass of bristles and the greater the bristle tip surface area; the greater the amount of fluids that can be spread across food surfaces. Our pastry and basting brushes have high bristle count for greater spreading and to eliminate bacteria harboring voids common on most other brands of pastry or basting brushes.

Health standards continue to increase day by day, brushes and cleaning tools will play an increasingly important role in meeting regulations and reducing maintenance costs. The proper brush or tool designed for the right job will endure greater efficiency and greater efficiency and reduce health risks in the food processing and food service environments. Carlisle offers the most comprehensive line of brushes and tools available to meet your very special requirements. We stock a wide range of products to serve customer demands and can provide custom designed products to serve solutions for even more specific needs. Carlisle is your single source for all food processing, food service, and janitorial cleaning products.

Here at Harco we will help you choose the proper brush for your specific job. Call our sales desk today for more information, and a free quote on Carlisle products.

VIKAN'S HYGIENIC THREAD, OR EURO THREAD, PROVIDES THE FOLLOWING BENEFITS:

- Threads are easier to clean
- Seals with thread on thread contact to minimize entrance of foreign material
- Less propensity for loosening of the tool threads during usage, often referred to as "walk-off"

Stainless Steel Euro-Thread Handles

Ergonomic and durable stainless steel handle can withstand demanding use, is chemical resistant and FDA complaint making it suitable for most applications in the food processing industry. Long colored hygienic sleeve increases durability and makes the handle ergonomically friendly, easy-to-use and promotes color-coding programs. Hygienically designed Euro-thread is easy to clean and allows for pairing with any Vikan brand broom, scrub, squeegee, or other hygienically designed Euro-thread Vikan products.

59˝ Stainless Steel Handle with Sleeve

White	Red	Yellow	Blue	Green
29395	29394	29396	29393	29392

Basic Aluminum Euro-Thread Handles

This basic aluminum handle is durable and suitable for most applications in the food processing industry. This standard aluminum handle is an important part of color-coding programs and can be used with all brooms, squeegees and scrapers. Color-coded hanging hole allows for easy storage. Hygienically designed Euro-thread prevents walk-off and is easy to clean.

TOTAL COLOUR BLOCK Floater Hand Scrub Brush CARLISLE

Colour-coded handle and bristles align with food safety (HACCP) promoting an integrated colour-coded sanitary maintenance system. Lightweight and Non-absorbent block won't crack or chip. These tough, durable and economical brushes are perfect for a multitude of cleaning chores and are ideal for use with most common chemicals. Mixed trim angles on bristles enable superior surface contact and cleaning. Staple-set, oil resistant bristles extend life and colour of brush. Crimped bristles enhance chemical retention, providing for a more efficient clean. BPA Free.

Chute, Valve & Bottle Brush

FDA approved materials BPA free CARLISLE

Colour-coded handle and bristles align with food safety (HACCP) promoting an integrated colour-coded sanitary maintenance system. Narrow diameter handle and softer bristles enable careful cleaning of jars, bottles, and glasses. Mixed trim angles on bristles enable superior surface contact and cleaning. Staple-set, oil resistant bristles extend life and colour of brush. Crimped bristles enhance chemical retention, providing for a more efficient clean. BPA Free. Heavy-duty, soak-proof brushes offer a dense fill of stiff bristles for greater cleaning efficiency and superior wear. Tough, but gentle bristles are firmly imbedded into the stem. White plastic handles with knurled grip offer better cleaning control.

CARLISLE

These medium-stiff polyester bristled brushes provide aggressive cleaning and a versatile design for a wide variety of applications - valves, horn hoops, outlets, kettles, or urns. Multiple trim angles on bristles give you better surface contact for better cleaning. Rugged plastic handles and crimped staple set polyester bristles will not absorb oils or moisture. Choice of handle lengths and available in oval or round.

Fixed Head Double Foam Blade Bench Squeegee

Made from FDA-compliant materials.

NEW

This fixed head bench squeegee with white foam blade is a small bench squeegee used for drying surfaces after a sanitizing process or for pushing both water and food from preparation surfaces. A double blade foam rubber squeegee with replaceable cassette (77715). The most effective squeegee for removing large amounts of liquid or debris from areas with a smooth or tiled surface quickly.

10˝ Blade - Bench Squeegee with 6.5˝ mini handle

77515	77514	77516	77513	77512

Single Blade Ultra Hygiene Squeegee

Autoclavable at temperatures up to 212°F/100°C. Made from FDA-compliant materials.

NEW

The ultra-hygienic fully molded single-blade squeegee is ideal for use in areas requiring the highest level of hygiene. Improved design features smooth and rounded surfaces which provide better hygiene and easier cleaning. The elongated body reduces wear and tear on the ends of the flexible rubber blade to enhance durability and efficiency. A splash gaurd helps prevent liquid from splashing onto the dried surfaces. Requires Euro-thread handle, sold separately, see pages 2 & 3.

Split Bristle Angle Head Broom

Vikan

The split bristle angle head broom is designed to handle fine particles like dust, flour, and powdered sugar. The soft/split bristles gently sweep away these powders without leaving residues. The broom head, made of FDA-compliant materials, comes in six colors, making it a great addition to any color-coded food safety or sanitation plan. Requires Euro-thread handle, sold separately on pages 2 & 3.

Upright Dustpan

This dustpan has an enlarged rear and side walls to allow it to hold more debris while its contact lip allows for easy and efficient sweeping. The outer front surface has a raised area to prevent debris from falling back out, making this a practical choice for cleaning up a large area quickly and with less strain on workers. FDA compliant. Total color dustpan and matching aluminum handle. Handle clip allows a broom to be attached during storage. See page 21 for Vikan's upright brooms (3104 / 3166).

Ultra Safe Technology Brooms and Brushes (UST)

The most secure, safe and hygienic cleaning tools for the food and beverage industry, Ultra Safe Technology is a revolutionary new line of brooms and brushes that help improve food safety and quality, minimize food waste and increase cleaning efficiency. They comply with food safety regulations and minimize the risk of contamination hazards. The innovative technology utilizes enhanced bristle security units directly molded to the brush block, removing any gaps or seams while offering unprecedented bristle retention strength. Each different brush has a unique bristle pattern to optimize function, while spacing between the bristle units makes each tool easier to clean, dry, and inspect.

Grout Brush

This grout brush is excellent for scrubbing in difficult to reach areas or areas where you only have limited space. You can turn the handle down so that it is parallel to the floor allowing the user to go down under equipment that is as low as 5 in. from the floor. The extra-stiff angle cut bristles are cut in an “arrow” shape to facilitate cleaning of grouts between tiles and crevices in general. The middle row of bristles are stiffer than the filament bundles on the sides. The new crevice scrub is mounted with thread adaptor that can be removed for easy cleaning of the whole product. The neck allows for 180° of rotation, great for cleaning under equipment, between equipment, getting into corners, cleaning the crevice between floors and walls, cleaning floors in toilets etc. Requires Vikan Euro-thread handle, sold separately on pages 2 & 3.

Extra-Stiff Brisltes - 9.25˝ L x 1.5˝ W x 6.25˝ H

Polyethylene Cutting Board

Colour-code your cutting boards to avoid cross-contamination. Assign a different colour for each specific use. The high-density polyethylene makes them great for food handling because they resist staining and absorption. A specially designed surface helps keep knives sharp longer. Boards won't crack or chip. Colour goes all the way through. NSF; meets USDA and FDA specifications. Custom cut sizes available, call for more info. Brushes available, see pages 5 and 13.

Nylon Hand Scraper with Threaded Handle

Suitable for loosening stubborn dirt like pastry, chocolate, burnt on food, etc. on smooth surfaces. The nylon blade is a good alternative to a stainless steel blade and can be used on sensitive surfaces to avoid scratches on equipment and sensitive conveyor belts. The hard blade can withstand hot surfaces when used at intervals of max. 2 minutes at a time. Can be used with any Vikan handle, see pages 2 & 3.

Small Scraper 4˝ W x 8˝ L

White	Red	Yellow	Blue	Green
40125	40124	40126	40123	40122

Stainless Steel Hand Scraper

This colour-coded stainless steel scraper is an excellent solution for removing stubborn debris from smooth surfaces. The scraper's beveled blade loosens dried pastry dough, starches, chocolate, and burnt food. The scraper is made entirely of FDA compliant materials, making it safe for food contact. Its ridged blade and ergonomic handle stand up to heavy and repeated use.

Vikan ADVANCING HYGIENIC CLEANING

SHOVELS

Composed solely of FDA-compliant polypropylene, our shovels are hygienic and durable. They also have the added benefits of being total color, fully molded, and non-sparking, making them a top choice in the food industry. These tools are a cost-effective alternative to stainless steel and are ergonomically designed to reduce stress on the user's back. Durable and lightweight, plastic tools won't damage equipment like metal tools can. (See Metal Detectable Shovels on page 36.)

Plastic Shovel

REMCO

Sturdy, one-piece shovel is constructed of rigid yet lightweight polypropylene. Perfect for hauling hefty loads. Smooth finish for easy clean-up. Deep bucket for extra capacity and an edged blade for easy scooping. Chemical and corrosion resistant. White, red, yellow, blue and green meet FDA and USDA requirements for food handling. Use black for non-food products.

Ergonomic Shovel

Vikan

This robust ergonomic shovel is designed for use in direct contact with food. The handle is reinforced with an inner aluminum tube. It is stepped in two places which helps to prevent back injuries. The neck joint has been strengthened in order to withstand heavy duty use. This hygienically designed shovel is easy to clean and ideally suited for moving large amounts of food product.

Sanitary Tote Boxes & Lids

CARLISLE

Heavy polyethylene construction makes these boxes and lids resistant to breakage and extreme temperatures. Impervious to acid, fat, oil, and grease. Ideal for walk-in cooler or dry storage areas. Comfortable recurved handle with sturdy reinforced rims reduce bending, bowing, and breaking and the Comfort Curve™ handles for a sure, comfortable grip. Smooth interior and big radius corners for easy cleaning. Textured outer surface resists marring. Contour lid design allows easy box-on-box stacking. All totes and lids are NSF Standard 2 Certified for food contact and cleanability. Available in 8 different colours for HACCP zone use. Lids sold separately.

TOP DOG™ GARMENTS

The Top Dog™ Aprons are designed to support zoned color-coding programs. These total-color garments are durable and hygienic, provide protection to the wearer and are reusable. These garments are made from an ether-based polyurethane film, making them ideal for the food and beverage industry. They are chemical and abrasive resistant and will remain soft at any temperature. Machine washable and dryer-safe up to 180°F. Waterproof, latex-free, reusable and recycleable.

Top Dog™ Gowns

One-piece construction limits the potential for foreign body contamination and reduces harborage points for pathogens. Gowns are reversible and fit comfortably over clothes. These gowns feature full-length cuffed sleeves that offers full protection. The open back improves user comfort by reducing weight and providing ventilation.

6 Mil Gowns - Large

Tingley Boot Saver® Shoe Covers

Prevent cross contamination with these high-quality, disposable shoe covers. Made from natural rubber latex Boot Saver® Shoe Covers are highly elastic and easily stretch over primary footwear. Resists a wide range of chemicals and fats, and provides a barrier from liquids and other contaminates. The textured outsole provides grip on both wet and dry surfaces, while the powder-free finish eliminates concerns about powder contamination. Sizes MED to 2XL to fit footwear sized 7 to 15.

Tingley Steplite® X Powered By Bekina® Pu Boots

100% waterproof and up to 30% lighter than most PVC and rubber knee boots, yet will last up to three times longer. These boots are made from high quality, chemical-resistant polyurethane (PU), and provide exceptional durability and comfort. A full-length sock liner, flexible upper, and removable contour insole delivers exceptional comfort, while the cleated, multi-purpose outsole provides excellent slip resistance on dry, wet-clean, and wet-contaminated surfaces. These seamless polyurethane construction boots are a 15" knee boot with 12" cutline for customizable boot height and are abrasion resistant for long life. Exceptional resistance to fats and oils. Self-insulating to keep feet warmer in the cold and cooler in the heat. Choose from plain toe or steel toe. Ideal Applications: Food Processing, Dairy, Meats (Beef, Chicken, and Pork), and Farm/Ag.

White Steel Toe - Meets ASTM F2413 M I/75 C/75

Dunlop® FoodPro Puroport® Safety Boots

A new generation of Purofort® boots designed for the Food Processing Industry. These polyurethane steel toe boots feature all the benefits of Purofort® technology, in addition to a MultiGrip outsole that can be used in a multitude of varying slip environments; mainly the (semi-) solid contaminated areas. Additionally the outsole of the MultiGrip is extra dirt-repellent. The FoodPro has been developed in such a way that it stays clean even longer. The surface of the shaft and the design of the boot are extra smooth, making the boot easier to clean. By ensuring that boots are easy to clean the risk of contamination can be brought to a minimum and that makes FoodPro more hygienic.

Rubber Knobby Mat™

Economic rubber mats designed for heavy wear and tear in almost any environment. Knobby surface on both sides allows circulation of air or liquid. Protects stainless steel parts or glassware from knocking against hard surfaces. Perfect for disassembled pump parts during repairs. Mat with black "X" helps prevent cross-contamination. Use the solid colored side for product contact and the side with the "X" as the bottom side. 21" x 27". All mats are formulated from FDA approved material.

Also available in Metal Detectable.

141-2200

141-2006 - White with Hanging Holes only

141-2010 - Black without Hanging Holes

Dual Colour Rubber Knobby Mat™

Take color-coding product contact and non-product surfaces to the ultimate level and reduce cross-contamination with this mat. One side of the mat is solid black while the other is solid colored making it easy to identify product and non-product surfaces. Knobby surface on both sides allows for circulation of air or liquid. Protect stainless steel parts or glassware from knocking against hard surfaces. Perfect for disassembled pump parts during repairs. Formulated of FDA approved materials and features 3/4" reinforced die-cut holes in two corners for easy hanging on the stainless steel mat hanger (#141-2200).

Also available in Metal Detectable.

Disinfectant Mat

Stop contamination at the door with a sanitizing footbath that cleans and sanitizes. Heavyduty rubber fingers clean shoe soles while solution sanitizes them. This unique double-action helps keep contamination from reaching food processing areas. Over 90% of the food plant professionals we surveyed said footbaths are Very Important or Somewhat Important. They are recommended at entrances to all food processing areas. Mat measures 32"x 39"x 2" deep.

HIGH-TEMPERATURE BRUSHES

NEW

These tools are a great solution to cleaning hot surfaces such as grills and frying pans and also removing debris from heat sealers and other packaging equipment. Max usage temperature (food contact): 212°F / Max usage temperature (non-food contact): 347°F - 356°F. Autoclave safe up to 356°C. FDA compliant and are dishwasher safe.

High-Temp Toaster Brush, 2pcs.

Vikan

Easily remove crumbs from toasters with this set of two professional-grade toaster brushes. Ideal for industrial kitchens, restaurants, and bakeries. Food contact max temperature: 212°F. Non-food contact max temperature: 356°F.

15.5˝ OAL - Medium Bristles - 2˝W x 1.85˝H

Red
30024

High-Temp Detail Brush

This brush can remove debris from heat sealers and other packing equipment. With its slim profile, it can also clean small gaps in grills and other equipment while they are still warm. Food contact max temperature: 212°F. Non-food contact max temperature: 356°F.

Vikan

8˝ OAL - Extra-Stiff Polyester Bristles - 0.79˝W x 2.36˝H

Blue
44023

High-Temp Hand Brush

Originally designed for removing debris from heat sealers and other packing equipment, this brush is also ideal for cleaning hot grills and frying pans. It has an ergonomically friendly design and a long handle so workers can safely clean without touching hot surfaces. Food contact max temperature: 212°F. Non-food contact max temperature: 356°F.

Vikan

11.5˝ OAL - Stiff Polyester Bristles - 1.2˝W x 2.5˝H

White
42885

High-Temp Scrubbing Brush

Vikan

Easily clean grills and hot surfaces with this highly effective scrubbing brush. This brush is compatible with any Vikan handle. Food contact max temperature: 212°F. Non-food contact max temperature: 356°F.

6˝ OAL - Extra-Stiff Polyester Bristles - 2.5˝W x 2.2˝H

White
47535

4˝ High Temperature Scraper

This high-temperature large hand scraper is great for scraping hot cooking surfaces, such as griddles. It has no seams or cracks, which helps prevent bacterial growth. This blade is a good alternative to a stainless steel blade and can be used on sensitive surfaces to avoid scratching equipment or conveyor belts. For use in temperatures up to 410°F. See pg. 24 for more scrapers.

4.25˝ OAL - Extra-Stiff Polyester Bristles - 9.4˝W x 0.88˝H
