MIXING & BLENDING SOLUTIONS

Harco offers a variety of sanitary mixers and blenders to ensure you have the solution you need. From powder and ingredient systems to in-line blenders and mixers, we have you covered.

POWDER-max

An innovative design allows POWDER-max to quickly blend wet and dry ingredients in a single, fully portable unit.

SHEAR-blend

The SHEAR-blend system combines powder induction and fluid pumping as an economical solution to moderate powder induction applications.

SIMPLE-blend

The SIMPLE-blend is designed to induce powders at a highly efficient rate with minimal shear.

DRY-blend

DRY-blend system offers efficient and thorough blending of wet and dry ingredients.

JET-shear

The JET-shear is used in open or closed tanks and totes, creating smooth consistent blends in tanks as large as 1000 gallons.

SHEAR-max HIGH SHEAR INLINE MIXER

The SHEAR-max can disperse, dissolve, emulsify, de-agglomerate, homogenize or simply blend.

SBH/SBI SERIES BLENDERS

SBH - High shear blending and
SBI - Medium shear blending

AMPCO PUMPS Authorized Distributor For...

ZP Series Pumps

ZP Series PD pumps have a 304 SS gear case on every pump. No more rusting, chipping and peeling. All stainless steel hardware, along with 17-ph H-1150 shafts, helical gears and 4-way mounting.

All can be rebuilt with over-sized rotors to extend the pump's useful life.

All are dimensionally and hydraulically interchangeable with other leading brands.

Ampco's ZP 3 SERIES offers multiple advantages:

- Front-loading seals for ease of maintenance
- In-line clean ability without further modifications
- New rotor case design for maximum efficiency
- Tungsten carbide seal faces for longer life

Bornemann SLH Twin Screw Pumps

Bornemann SLH Series is the leader in twin screw pump technology. They are 3A- and EHEDG-certified for sanitary standards and provide tremendous capabilities.

Gentle handling of soft solids and viscous products, the SLH is virtually pulsation-free. Capable of processing and CIP, making the SLH a dual-duty pump.

TWO MODELS AVAILABLE: SLH-4G PREMIUM & SLH-4U STANDARD

Standard Features:

- 304 Stainless Steel Gearcase and 316L Stainless Steel Fluid End
- Handles up to 60% Entrained Air
- Multiple Screw Sizes & Screw Pitch Angles Available
- Helical Gears & Hardened Rotors

FOR MORE INFO, VISIT <https://www.harcosupply.com/pumps/twin-screw/>

AC+ Series Centrifugal Pumps

AC+ pumps are an economical solution to sanitary pump applications such as beverages, juice, dairy and pharmaceutical.

- Improved shaft design - Clamped stub shaft and threaded impeller nut provide more stable performance
- External dimensions are the same as AC pumps - no need to change piping
- Hydraulic performance is identical to the AC pumps
- 316L Stainless Steel construction
- Stainless Steel adapter
- Parts are 100% interchangeable with competing brands

FOR MORE INFO, VISIT <https://www.harcosupply.com/pumps/centrifugal-pumps/>

LC/LD/LF Series Centrifugal Pumps

- Dimensionally, hydraulically and parts are interchangeable with **Fristam**

- Stainless Steel Motor Adaptors
- SS Motors Available

LC SERIES Pump

LF SERIES Pump - front loading seal design.

High efficiency centrifugal pumps that meet all your sanitary requirements.

SP Series Centrifugal Pumps

The self-priming capability of these SP liquid ring pumps make them ideally suited for CIP return applications.

- Ability to handle products with entrained air - extremely efficient for emptying tanks and drums
- Handles shear sensitive products efficiently
- Single or double external mechanical seals
- 304 SS Standard adapters resist corrosion

SANITARY PUMPS - Flow Components Authorized Alfa Laval & Tetra Pak Distributor

The highly efficient pumps supplied by Harco provide precision pumping for all kinds of fluids with different viscosities, and the desired functionality for gentle and cost effective food production.

- Centrifugal
- Rotary Lobe
- Liquid Ring
- Positive

Applications: Brewing, Dairy, Food, and Pharmaceutical Industries.

Stainless Steel SRU Pump

LKH Pump

C-Series Pump

Stainless Steel LKH Prime Pump

Large Inventory of OEM Spare Parts in stock.

SANITARY VALVES - Flow Components Authorized Alfa Laval & Tetra Pak Distributor

The smart design of all valves supplied by Harco incorporate state of the art, precision engineered designs that meet or exceed current regulatory requirements. This category covers a wide range of valves for both sanitary, aseptic and non-sanitary applications.

- Unique - Mixproof - PMO
- Single Seat - SSV/7000 Series
- Shutter/Butterfly
- Regulating
- Sampling
- Automation
- LKC check valves

Applications: Brewing, Dairy, Food, and Pharmaceutical Industries.

NEW ThinkTops V50 and V70

takes valve control to a new level and all these new features are available on any Alfa Laval diaphragm, butterfly, single-seat and mixproof valves.

Benefits:

- Automatic valve recognition
- Automatic selection of tolerance bar
- Fast Auto, Live and Flex Setup
- 360-degree LED indication
- Burst seat clean
- Exchangeable (threaded) air-fittings
- Interchangeable with ThinkTop class

The All New and Improved Alfa Laval ThinkTops!

Large Inventory of OEM Spare Parts in stock.
