

MODULAR FLOOR RACK SYSTEM

Perfect for where moisture collects on the floor.

Keeps food products or other items elevated for more sanitary storage.

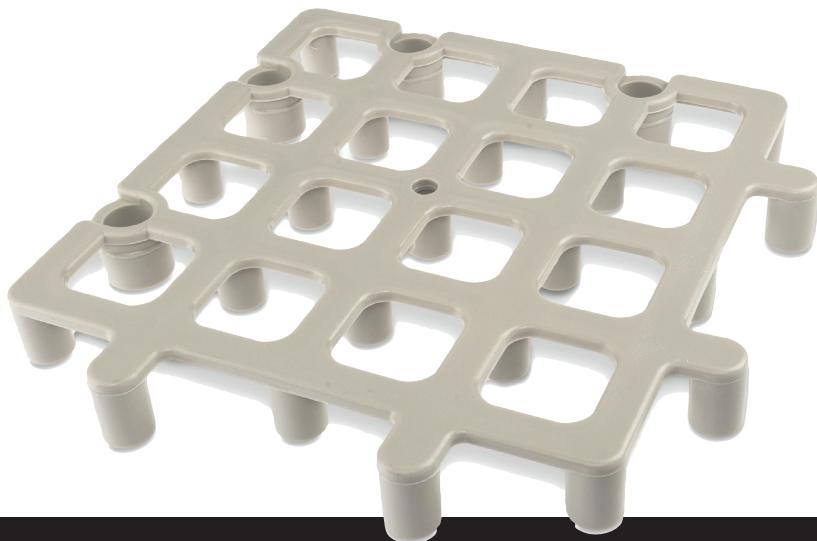

Cleans easily in dishwasher or with hose.

- Elevated Design – Decreases water and condensation damage by raising boxes and items off of the floor
- Increased Air Circulation – Open grid pattern gives boxes and bins exposure to open air for maximum odor prevention
- Lightweight plastic
- 12" x 12" x 1½"
- Ultra-Strong – One square foot supports up to 3,000 pounds
- NSF, FDA approved polyethylene construction and BPA Free
- Withstands temperatures from -40°F to 180°F

CARLISLE

Easy Assembly – Modular grid pieces snap together to create any size of rack system
