Selecting the Right Cleaning Tool

Choosing the proper cleaning tool is essential for effective cleaning, improved efficiency, and maintaining hygienic environments. The right tool depends on the task, surface, application, and hygiene requirements.

Key Considerations:

- **Fit-for-Purpose** – Choose the right tool, size, and design for the application to maximize cleaning performance.
- **Bristle Selection** – Select the proper bristle stiffness and trim for effective cleaning while protecting surfaces.
- **Hygienic Design** – Use durable, easy-to-clean tools that help minimize areas where bacteria and debris can collect.
- **Compliance** – Select products made from suitable materials that meet food contact requirements and industry standards.
- **Ergonomic Design** – Choose tools designed for comfort, control, and reduced user strain.

Our Colour-Coded Product Selection Includes: Brushes, handles, cleaning tools, material handling products, containers, and protective equipment to support effective hygiene and food safety programs.

Why Colour-Code?

Colour-coding is a simple and effective way to help reduce the risk of cross-contamination while improving organization and workflow. Assigning specific colours to designated tasks, areas, or hygiene zones creates a clear visual system for tool selection and use.

A colour-coded program helps:

- Minimize cross-contamination by reducing the spread of bacteria, allergens, and contaminants
- Support HACCP, GMP, and food safety procedures
- Improve employee training and consistency
- Increase workflow efficiency through quick tool identification
- Maintain zone control and protect product integrity
- Improve traceability during cleaning procedures

Need Help Selecting the Right Products?

Harco provides the expertise and products to help you choose the right tools and colour-coded solutions for cleaner, safer, and more efficient operations. Call our Order Desk today for product recommendations and a free quote.

Sparta® General Purpose Hand Scrub Brush

SPARTA®

Medium-stiff polyester bristles are ideal for scrubbing **cutting boards** and counter tops. Great for hard-to-clean and close quarter work where a larger brush won't fit. See page 34 for colour-coded polyethylene cutting boards.

Medium-Stiff Bristles - 6" L x 2.5" W x 2.2" H, 1.25" Trim

White	Red	Yellow	Blue	Tan	Green	Black
40521-02	40521-05	40521-04	40521-14	40521-25	40521-09	40521-03
Brown	Pink	Orange	Purple	Grey	Light Green	
40521-01	40521-26	40521-24	40521-68	40521-23	40521-75	

VIKAN® UST Hand Brush

This ergonomically designed hand brush effectively cleans in corners, junctions and other hard-to reach areas. Great for cleaning conveyor belts, production lines, machinery and food-preparation surfaces in high-risk areas. 1.5" L bristles.

Stiff Bristles - 6.9" L x 2.6" W x 2.2" H, 1.5" Trim

White	Red	Yellow	Blue	Green	Pink	Orange	Purple
38915	38914	38916	38913	38912	38911	38917	38918

VIKAN® Hand Scrub Brushes

Multi-purpose hand scrub brushes for cleaning food preparation surfaces, including tables, conveyor belts, cutting boards, buckets, large bowls, tanks, and equipment with tight corners and crevices. Angled bristles, with harder bristles at one end, effectively remove stubborn dirt. Available in MED (3587) with medium bristles for general-purpose cleaning, LRG (3890) with stiff bristles for versatile cleaning, and XL (3894) with extra-stiff bristles for heavy-duty applications. All models feature a hygienic design and drainable hanging hole for comfortable use and easy storage. The ergonomic XL brush provides enhanced grip for larger cleaning tasks. Ideal for food processing environments where hygiene is critical.

LRG - Stiff Bristles - 7.9" L x 2.8" W x 2.4" H, 1.4" Trim

White	Red	Yellow	Blue	Green	Black	Pink	Orange	Purple
38905	38904	38906	38903	38902	38909	38901	38907	38908

XL - Extra Stiff Bristles

- 9.1" L x 4.3" W x 2.7" H, 1.5" Trim

White	Red	Yellow	Blue	Green
38945	38944	38946	38943	38942

MED - Medium Stiff Bristles

- 6.5" L x 2.0" W x 1.8" H, 0.8" Trim

White	Red	Yellow	Blue	Green
35875	35874	35876	35873	35872

VIKAN® Small Utility Brush

This small, light-weight brush has a broad head and an ergonomically angled handle. Design raises user's hand from the cleaning surface, reducing the risk of injury. Suitable for cleaning small surface areas, tables, pots, cutting boards etc. 0.9" L medium stiff polyester bristles.

Medium Bristles - 10.2" L x 1.6" W x 2.8" H, 0.9" Trim

White	Red	Yellow	Blue	Green
30885	30884	30886	30883	30882

VIKAN® Long Handle Scrubbing & Washing Brush

Designed for cleaning hard-to-reach areas on machines and equipment, including deep buckets, containers, tubs, and other large vessels. The long handle provides extended reach, while the angled, stiff polyester bristles deliver effective scrubbing power from a distance. Durable polyester bristles ensure thorough cleaning of equipment surfaces and difficult-to-access areas.

Stiff Bristles - 16.3" L x 2.8" W x 3" H, 1.4" Trim

White	Red	Yellow	Blue	Green	Black	Pink	Orange	Purple
41865	41864	41866	41863	41862	41869	41861	41867	41868

VIKAN® Narrow Head Long Handle Cleaning Brush

Easily clean and scrub small, hard-to-reach spaces with this narrow-headed brush. The compact head features stiff, angled bristles that effectively clean corners and tight areas. The ergonomic grip provides extra stability during use.

Stiff Bristles - 16.5" L x 1.8" W x 4.33" H, 1.4" Trim

White	Red	Yellow	Blue	Green	Orange	Purple
41855	41854	41856	41853	41852	41857	41858

VIKAN® Short Handle Washing Brushes

Ergonomically designed for daily cleaning, these brushes feature short handles with stiff, soft, or soft/split bristles. Stiff bristles remove stubborn dirt from equipment and food surfaces, while soft bristles gently clean delicate surfaces such as glass and Perspex. Soft options retain water and chemicals for improved cleaning efficiency and applications such as coating cheese with wax.

Stiff Bristles - 10.6" L x 2.8" W x 3.3" H, 1.4" Trim

White	Red	Yellow	Blue	Green	Black

White	Red	Yellow	Blue	Green
41985	41984	41986	41983	41982

Soft-Split Bristles - 10.6" L x 2.8" W x 3.3" H, 1.6" Trim

White	Red	Yellow	Blue	Green
41945	41944	41946	41943	41942

VIKAN® UST Hand Cleaning Brushes

These brushes feature stiff polyester bristles for effective cleaning while reducing contamination and bristle loss. The short handle is ideal for conveyor belts, production lines, machinery, and food surfaces, while the long handle provides extended reach for machines, buckets, containers, and tubs.

Short Handle - Stiff Bristles - 10.2" L x 2.8" W x 3.9" H, 1.5" Trim

White	Red	Yellow	Blue	Green	Pink	Orange	Purple
41795	41794	41796	41793	41792	41791	41797	41798

Long Handle - Stiff Bristles - 15.6" L x 2.8" W x 5.5" H, 1.5" Trim

White	Red	Yellow	Blue	Green	Pink	Orange	Purple
41965	41964	41966	41963	41962	41961	41967	41968

Sparta® Floater Hand Scrub Brushes

SPARTA

Lightweight and durable, these brushes feature a floating, non-absorbent block that resists cracking and chipping. The ergonomic handle provides comfortable use, while stiff polyester bristles rinse easily and multiple trim angles improve cleaning contact.

Short Handle - 8"L x 3"W x 2.75" H, 1.75" Trim

White	Red	Yellow	Blue	Tan	Green	Black

**VIKAN® Single Blade Ultra Hygiene Squeegees**

Ultra-hygienic, fully molded single-blade squeegee designed for high-hygiene applications including food preparation surfaces, walls, floors, and tables. Smooth, rounded surfaces simplify cleaning, while the elongated body helps reduce blade wear for improved durability. The flexible angled blade effectively removes water and food debris from corners and hard-to-reach areas, with an integrated splash guard to prevent liquid from spreading onto dry surfaces. Made from FDA-compliant materials and autoclavable up to 250°F/121°C. Compatible with VIKAN® Euro-thread handles (sold separately on pages 25 & 26).

VIKAN® Wall & Floor Scrub Brushes

Designed for efficient cleaning in food production environments such as meat plants, bakeries, canneries, and dairy facilities. Firm polyester bristles remove stubborn residues from epoxy, tile, cement, and uneven surfaces while reaching into grout and crevices. The 19" version covers large areas, while the smaller size improves maneuverability in tight spaces. Reduces scrubbing effort for improved efficiency. FDA-compliant and autoclavable up to 250°F (121°C). Requires VIKAN® Euro-thread handle, sold separately on pages 25 & 26.

VIKAN® Grout Brush

Designed for effective cleaning in tight and hard-to-reach areas, including under equipment, between machinery, corners, and grout lines. Features an arrow-shaped bristle pattern with a stiffer center row and softer outer bundles for targeted scrubbing of grout and crevices. The adjustable neck allows 180° rotation and enables access under equipment with as little as 5"–6" clearance from the floor. Threaded adapter can be removed for easy cleaning of the entire brush. Made from FDA-compliant materials and autoclavable up to 250°F (121°C). Requires VIKAN® Euro-thread handle, sold separately on pages 25 & 26.

Extra-Stiff Bristles - 8.9" OAL, 1.4" W, 1.6" Trim

70405	70404	70406	70403	70402	70409

Sparta® Swivel Scrub® Brushes

SPARTA

Designed to clean baseboards, walls, around equipment, corners, and other hard-to-reach areas where floor machines cannot reach. The swivel design rotates onto its side for improved access and cleaning efficiency. Available in General Scrub for routine cleaning and Power Scrub for heavy-duty scrubbing and wax removal. Durable polyester bristles resist water, high temperatures, acids, alkalis, and most cleaning solutions. Ideal for food processing, healthcare, schools, and hospitality environments. Features a coloured block with matching bristles and uses standard threaded handles, sold separately on pages 24.

VIKAN® Upright Lobby Floor Broom

Fully colour-coded straight-neck lobby broom for routine cleaning in food processing environments. Ideal for sweeping dry areas, cleaning between equipment, under tables, and in tight spaces. Effectively removes dust, powders, food particles, peelings, grains, and debris. Soft/stiff bristles loosen stubborn soils and collect fine particles, while medium bristles handle moist or dry debris. Durable, lightweight, ergonomic, and easy to clean. Requires VIKAN® Euro-threaded handle (sold separately on pages 25 & 26). See page 22 for VIKAN® Upright Dustpan (5662).

VIKAN® Dustpan Broom with Angled Thread

Lightweight broom for sweeping dry and wet debris in food processing and food service environments. Features dual-diameter bristles with softer outer bristles for effective sweeping and medium center bristles for moist or dry debris such as peelings and grains. Angled bristles and thread allow ergonomic sweeping along walls, corners, under equipment, and in tight spaces. Integrated scraping edge loosens stubborn debris. Durable and easy to clean. Requires VIKAN® Euro-threaded handle (sold separately on pages 25 & 26). See page 22 for VIKAN® Upright Dustpan (5662).

VIKAN® Upright Lobby Dustpan

Designed for efficient, ergonomic cleanup of large areas, this upright dustpan features an enlarged rear and side wall design to hold larger volumes of debris. The contact lip allows for easy, smooth sweeping into the dustpan, while the raised front surface helps prevent debris from falling back out. Features a fully colour-coded dustpan with matching aluminum handle and a handle clip for convenient broom attachment during storage. FDA-compliant and ideal for reducing strain during routine cleaning. See page 21 for VIKAN® brooms (3103, 3104, 3166).

Sparta® Standard Thread Fiberglass Handles**SPARTA**

Durable, easy-to-clean fiberglass handles designed for heavy-use applications with push brooms, sweeps, squeegees, and floor scrubs. Fiberglass construction provides rigid strength while resisting absorption of bacteria-laden dirt and moisture. Features 1" diameter handles, standard threaded tips, and Self-Locking Flex-Tip™ options for flexibility and reduced handle stress. Foam-filled models provide added strength and help minimize bacterial growth compared to hollow handles.

**VIKAN® Scrub Pads**

These scrub pads are made from polyester fibers with a high (coarse - brown), moderate (medium - blue) and light (fine - white) level of abrasiveness. Scrub pads may be used with pad holders and handles to clean stubborn messes in difficult to reach areas - Vikan Cleaning Pad Holder (5500x) or the Vikan Handheld Cleaning Pad Holder (5510x). All scrub pads measure 4.4" wide x 10" long.

Brown
5523

Brown-Coarse - This pad is tough on stubborn dirt and grime, especially on floors.

Blue
5524

Blue-Medium - This medium pad is great for cleaning stubborn dirt and grime on walls.

White
5525

White-Fine - This soft pad is gentle enough to clean stainless steel tanks and other sensitive surfaces.**VIKAN® Angle Device w/Thread****NEW**

Threaded angle adapter designed to improve reach and access when cleaning hard-to-reach areas. Fits between a VIKAN® handle and compatible cleaning tool, creating an adjustable angled working position for cleaning above, below, and around equipment. Ideal for machinery, conveyors, pipework, tanks, and other difficult-to-access surfaces while improving cleaning efficiency and operator ergonomics.

HYGIENIC SHOVELS

Made from FDA-compliant polypropylene, these hygienic, durable shovels feature one-piece, fully molded construction that eliminates areas where contaminants can accumulate. Non-sparking, lightweight, and ergonomic, they provide a safe, cost-effective alternative to stainless steel while reducing strain and preventing damage to equipment and processing surfaces. (See Metal Detectable Shovels on page 44.)

Vikan® Plastic Shovel

Tough, lightweight one-piece shovel molded from FDA-compliant polypropylene for hygienic bulk material handling. Features a deep scoop, edged blade, and smooth finish for easy scooping and cleaning. Chemical and corrosion resistant, durable for heavy loads, and ideal for food processing applications including meat, dairy, seafood, and poultry. Available in FDA- and USDA-compliant colours for food contact applications; black recommended for non-food use. Operating temperature range: -22°F/-30°C to 176°F/80°C.

VIKAN® Flat-Sided Pails & Lids

FDA-compliant hygienic pails designed for cleaning, food storage, ingredient transport, and mixing applications. Features a flat-sided design to help prevent spills, calibrated interior measuring scales in gallons and litres, a drip-free spout, raised bottom hand grip, and durable stainless steel handle. Smooth surfaces and rounded interiors promote easy cleaning, while snap-on lids help protect contents during storage and transport. Available in 1.5, 3, and 5 gallon sizes, with optional wall-mount brackets for storage. Temperature rated from 5°F to 250°F (-15°C to 121°C). Pails, lids, and brackets sold separately.

Round Dolly

Dollies fit our 20, 32, 44, and 55 gal containers for safe transport of heavy loads. Simple twist-to-lock feature securely attaches dolly. Containers can be pushed or lifted without accidentally coming off. Dollies include standard non-marking 3" swivel casters. Dolly has replaceable casters for long life.

Black
2640

- Ergonomic Comfort Curve™ handles provide for easy handling
- Snap down and presspull lids stay on and remove with ease
- Design prevents water from collecting on lid

- Integrated sanitary hand-holds on bottom allow for easy lifting

BRUTE® Round Containers & Lids

Rugged, all-purpose containers built for demanding food processing environments, ideal for ingredients, food products, or waste. Crush-resistant construction, reinforced handles, and a durable base provide long service life. Venting channels make liner removal up to 50% easier, while integrated cinches secure liners for quick changes. Optional dollies (sold separately) convert containers into mobile bins. Made from USDA-accepted, FDA-compliant materials and NSF Standard 2 certified. (Dome tops and dollies are not NSF certified.)

Clamp Gaskets

The standard 40MP-U BUNA clamp gasket just got better! Colours make it easy to code by area or date changed. Flexible, non-toxic compounds meet FDA specifications for direct contact with dairy products and edible oils, as well as 3-A, USDA and NSF criteria. Sold individually, but order in package quantities of 25 for more economical pricing.

COLOURED FEMALE CAPS

COLOURED MALE CAPS

TOP DOG™ GARMENTS

Designed to support zoned colour-coding programs, TOP DOG™ aprons and sleeves provide durable, hygienic protection for food and beverage applications. Made from ether-based polyurethane film, these reusable garments are waterproof, latex-free, chemical and abrasion resistant, and remain soft in all temperatures. Machine washable and dryer-safe up to 180°F. Recyclable construction provides a sustainable solution.

TOP DOG™ Gowns

One-piece construction minimizes foreign body contamination risks and reduces pathogen harborage points. Reversible gowns fit comfortably over clothing and feature full-length cuffed sleeves for full protection. The open-back design improves comfort by reducing weight and providing ventilation.

6 Mil Gowns - Large, 45" Length

Tingley Boot Saver® Shoe Covers

Disposable, liquid-proof natural rubber latex shoe covers designed to help prevent cross-contamination in food processing and industrial applications. Highly elastic to stretch over boots and shoes while resisting snags, tears, abrasion, chemicals, fats, and greases, providing a barrier against liquids and contaminants. Textured outsole provides wet and dry traction, while the powder-free finish helps prevent contamination. Ambidextrous design fits either foot. Available in sizes M-2XL to fit footwear sizes 7-15.

TINGLEY

Tingley Steplite® X Powered by Bekina® PU Boots

100% waterproof, high-quality polyurethane (PU) boots that are up to 30% lighter than most PVC and rubber knee boots, yet last up to three times longer. Chemical, abrasion, fat, and oil resistant, these seamless boots provide exceptional durability and comfort. Features include a full-length sock liner, flexible upper, removable contour insole, and cleated multi-purpose outsole for excellent slip resistance on dry, wet-clean, and wet-contaminated surfaces. Self-insulating construction keeps feet warmer in cold conditions and cooler in heat. 15" knee boot with 12" cutline allows customizable height. Available in plain toe or steel toe options. Ideal for food processing, dairy, meat (beef, chicken, pork), and agricultural applications. Meets ASTM F2413 M I/75 C/75.

Dunlop® FoodPro Puroport® PU Safety Boots

Designed for the food processing industry, these lightweight, fully waterproof polyurethane (PU) steel toe boots combine Puroport® technology with a MultiGrip outsole for excellent slip resistance in wet, dry, and semi-solid contaminated environments. The dirt-repellent outsole and ultra-smooth shaft design help keep boots cleaner longer and make them easier to wash, reducing contamination risks. Features include high resistance to chemicals, blood, oils, and fats, abrasion-resistant construction, antibacterial lining, removable insole, and thermal insulation for comfort. Available in colour-coded options to support hygiene programs and help reduce cross-contamination and allergen risks. Meets ASTM F2413-11 M I/75 C/75 EH.

Rubber Knobby Mat™

Economical rubber mats designed for heavy wear and tear in food processing and industrial environments. Knobby surfaces allow air and liquid circulation while protecting stainless steel parts and glassware from hard surfaces. Ideal for pump parts during repairs and mobile repair applications. Made from FDA-approved materials, with EPDM standard and white nitrile available for oil-resistant use. Black "X" mat helps prevent cross-contamination; use the solid side for product contact and the "X" side as the bottom. Features 3/4" reinforced die-cut holes for easy hanging (stainless steel mat hanger sold separately).

21" x 27" Mat with "X" and 0.75" Hanging Holes

Also available in Metal Detectable.

Dual Colour Rubber Knobby Mat™

Designed to enhance identification of product and non-product surfaces while helping reduce cross-contamination. One side features a solid black surface, while the opposite side is solid coloured for easy identification. Knobby surfaces on both sides allow air and liquid circulation while protecting stainless steel parts and glassware from hard surfaces. Ideal for disassembled pump parts during repairs. Made from FDA-approved materials and features 3/4" reinforced die-cut holes in two corners for easy hanging on stainless steel mat hanger (#141-2200).

Disinfectant Mat™

Heavy-duty sanitizing footbath designed to help prevent contamination in food processing areas. Flexible rubber fingers scrub dirt and debris from footwear while sanitizing solution disinfects soles, sides, and boot welts. High-wall design provides deeper immersion and holds up to 20 quarts of solution, while the large size helps cover doorways and promote consistent use. Available in chlorine-resistant and antimicrobial options; antimicrobial construction helps inhibit unwanted microorganisms and features a bright yellow colour for visibility and quality control. Size: 39" x 32" x 2" deep.

HIGH-TEMPERATURE BRUSHES

Designed for cleaning hot surfaces such as grills, frying pans, heat sealers, and packaging equipment. FDA-compliant and dishwasher safe, these durable brushes are suitable for food contact applications up to 212°F and non-food contact use up to 347°F–356°F. Autoclave safe up to 356°C.

VIKAN® High-Temp Toaster Brush, 2pcs.

Professional-grade toaster brushes designed to easily remove crumbs from toasters in industrial kitchens, restaurants, and bakeries. Food contact temperature up to 212°F; non-food contact temperature up to 356°F.

Medium Bristles - 2"W, 15.6" OAL, 1.85"H

Red
30024

VIKAN® High-Temp Detail Brush

Slim-profile brush designed to remove debris from heat sealers, packaging equipment, grills, frying pans, and other warm surfaces. Ideal for cleaning small gaps and hard-to-reach areas. Food contact temperature up to 212°F; non-food contact temperature up to 356°F.

Extra-Stiff Bristles - 0.8" W, 8.1" OAL, 2.4" H

Blue
44023

VIKAN® High-Temp Hand Brush

Designed to remove debris from heat sealers and packaging equipment, this brush is also ideal for cleaning hot grills and frying pans. Ergonomic design with a long handle helps keep hands away from hot surfaces. Food contact temperature up to 212°F; non-food contact temperature up to 356°F.

Stiff Bristles - 1.2" W, 11.4" OAL, 2.6" H

White
42885

VIKAN® High-Temp Scrubbing Brush

Highly effective scrubbing brush designed for cleaning grills and other hot surfaces. Compatible with any VIKAN® handle. Food contact temperature up to 212°F; non-food contact temperature up to 356°F.

Extra-Stiff Bristles - 2.6" W, 5.9" OAL, 2.2" H

White
47535

VIKAN® 4" High Temperature Scraper

Heat-resistant nylon blades designed for scraping hot cooking surfaces such as griddles. Seamless construction helps prevent bacterial growth, while the non-scratching blade provides a safe alternative to stainless steel on sensitive surfaces and conveyor belts. Suitable for temperatures up to 410°F. See pgs. 30-33, 43 for more scrapers.

Extra-Stiff Bristles - 4.3"W, 9.4"OAL, 0.88" H
