Product selection guide

Vikan scoops

- These fully color-coded hand scoops are great for moving small amounts of material. Their seamless, solid construction enhances durability and helps prevent bacterial growth.
- Vikan hand scoops are versatile tools widely used in the baking, meat, poultry, seafood, and milling industries. They can handle fine powders, large food particles, and even ice with ease.

32 oz. Hand Scoop

6500x
82 oz. Hand Scoop

- The Mega Scoop (6550x) and Mega Dipper (6552x) are designed to measure and move a variety of food particles and liquids.
- The Mega Dipper can be connected to any Vikan threaded handle to scoop material out of vats and other difficult-to-reach areas.
- The Round Bowl Scoops (5681x, 5682x) are lightweight, durable, and ergonomic, featuring dual pouring spouts for both left- and right-handed users. A built-in measuring scale supports product testing, while their seamless, one-piece construction prevents bacterial growth and ensures easy cleaning.
- The Round Bowl Scoops integrate seamlessly with Vikan buckets and are ideal for use in food production areas and handling and measuring ingredients, liquids, and more.
- The Dustpan (5660x) has a sharp edge for efficiently collecting food particles and a sturdy neck joint to withstand downward pressure, making it ideal for use on floors and tables across various industries.
- The Lobby Dustpan Set has a large lockable bin that allows for big and small cleanup jobs while the tall handle helps prevent back pain that stems from leaning over shorter dustpans.
- The Upright Lobby Dustpan helps prevent back pain and works in nearly any setting.
- The Utility Dustpan (6350) features a wide pan so it can easily collect debris.

**Vikan Utility Dustpan is not FDA compliant.*

- Dustpans can be used with brooms and brushes to collect dirt and dust, or with squeegees to collect food particles.
